

Dear Tennis Enthusiasts,

On behalf of the Lynchburg Tennis Patrons Association and with your interest in the sport of Tennis, I would like to invite you to participate with our Association. We also are looking for financial support in order to provide the tennis programming that our organization offers, but even more importantly, I am asking for a little of your time and energy.

The LTPA currently provides tennis games and instruction to various groups throughout our area, and we would like to expand that to a higher level. We offer junior and adult tennis tournaments, summer tennis lessons to both juniors and adults, tennis rallies and carnivals to showcase the fun we experience with the game, providing equipment and even racquet giveaways for prizes. We offer outreach programs such as after school tennis at the Hunton Y and we work with Special Populations teaching them the basics. We continue to provide summer programming at Heritage High School and Fairview and we assist the Lynchburg Parks and Recreation Department allowing tennis to be a part of their summer camps.

We, currently, are planning after school tennis programs in several areas. We plan to bring the sport back to the area Middle Schools by helping to enhance their program, and we would like to offer tennis rallies at all schools to increase junior participation. We plan to offer special programming like "Welcome Back to Tennis" for seniors and Team Tennis for beginners.

We have many goals, but to achieve them, we need you! Regardless of your teaching ability or playing level, we can use your time, energy and enthusiasm. Help us to bring the sport back to the forefront, and offer its rewards to those that are not experiencing this great game that we know is both fun and exciting.

Thanking you,

Bennie Nash, President
Lynchburg Tennis Patrons Association
